President's Message to the Graduates

Congratulations on the successful completion of your studies! It has been a pleasure and a privilege to have you as a student at the University of Maryland. As you take formal leave of *your* university, my colleagues and I would like you to know how much we value the outstanding contributions you have made in so many different areas. The laurels that the Class of '97 have won in scholarship and in artistic performance, in athletics and as young leaders, have brought added acclaim to this venerable institution.

On our part, we have endeavored to provide you with as many opportunities as possible for nurturing your special interests and talents, and for developing the broad intellectual perspectives you will need to compete successfully in the professional world. We are confident that your University of Maryland education will prove to be well worth the time and effort you invested in it and that your experience here, both inside and outside of the classroom, will serve you well in the years to come.

We hope that you will cherish the friendships you made here, and that Maryland will always evoke the happiest of memories for you. Please continue to support this institution and its destiny as the flagship university of Maryland. Although you will be leaving this university to explore new vistas and face fresh challenges, we hope that you will visit often and that you will always remain connected in spirit to your alma mater.

Good luck and Godspeed to each and every one of you!

Sincerely yours,

A handwritten signature in black ink that reads "WE Kirwan". The letters are written in a cursive, slightly stylized font.

William E. Kirwan
President

Congratulations on achieving the ultimate goal of your undergraduate years. On behalf of the University of Maryland Alumni Association, I would like to add our very best wishes to those you have received from your faculty and other university friends. As President Kirwan has told so many recent alumni, you'll always be a part of us, and we hope you'll keep in touch.

Your commencement ceremony today includes a special tradition. You will be officially inducted as a member of the University of Maryland Alumni Association by this year's association president, Phil Rever. Your six-month membership card and a list of benefits and services may be found on the inside back cover of the Graduation Handbook. If you no longer have your handbook, please stop by the Office of Alumni Programs located in the Rossborough Inn. We will be pleased to issue you a new membership card and provide you with more information.

Wherever your plans take you following graduation, you'll find Maryland friends and professional contacts by staying involved in alumni activities. There are more than 30 academic, regional and special interest groups—including our newest, the Young Alumni Club, which you may find to be of particular interest. And, of course, attending Maryland athletic events is always a great way to get together with fellow grads. Regardless of how you choose to stay involved, our purpose remains the same: to respond to the needs and interests of all alumni, and to support your continued interest in and loyalty to the University of Maryland.

Again, best wishes for all the challenges and triumphs that lie ahead.

Sincerely,

Joan Patterson '66
Executive Director, Alumni Programs

From Alumni Programs

Today you complete the journey which was undertaken several years ago, arriving proudly at the threshold of a new life. When you look back, can you see how this journey has changed you? As you sit here today, what events stand out in your mind as experiences that showed you which path to travel?

We have each followed a unique path but have reached a common destination. As seniors, it is easier to list the ways in which we are different from each other than the ways in which we are bound together.

We are accustomed to describing students in groups—commuters, residents; members of ethnic, religious, or professional organizations; students in particular departments and colleges. These differences should be admired and respected as should the many qualities we share.

From this point, you can reflect on past journeys. Remember what you learned along the way about who you are and what you are capable of achieving.

Know that your time spent at the University of Maryland will help you arrive at your next destination. Finally always consider our campus to be another home, a stop on your life's journey to which you can always return.

Congratulations!

Schedule of Events

Following the Commencement, individual graduation exercises for colleges and schools will be held at several campus locations. Ceremonies are scheduled to begin at noon, 2:30 or 4:30 p.m. Guests are urged to be seated approximately one half-hour prior to the designated time for the ceremonies if they wish to observe the student and faculty procession.

Graduates, their families and friends, are cordially invited and encouraged to join with university officials and members of the faculty at the reception to be held outside on McKeldin Mall. The rain location for the reception will be the Grand Ballroom of the Stamp Student Union.

Shuttle bus service will provide free transportation across the campus throughout the day.

The University of Maryland at College Park

THE CAMPUS

Flagship campus of Maryland's 11-institution system of higher learning, the University of Maryland, College Park, is the most comprehensive institution of higher education, research and service in the state. The university offers 98 undergraduate majors, 87 master's programs and 68 doctoral programs in 13 colleges and schools.

The university is one of only 30 public research universities that are members of the prestigious 58-member Association of American Universities and the only public institution in the Maryland-D.C. area with membership in the nation's most distinguished honor society, Phi Beta Kappa. It is classified as a Research-1 university by the Carnegie Foundation by virtue of the range of its baccalaureate programs, the amount of federal support received and the number of doctoral degrees awarded each year, sharing that honor with the top research universities in the country.

Fall 1996 College Park students at a glance:

Total enrollment:	32,908
Graduate Students:	8,535
Full-time:	4,158
Part-time:	4,377
Undergraduates:	24,373
Full-time:	15,618
Part-time:	8,755
Average age:	24.6
States represented:	50
Countries represented:	130
Minorities:	32%

Among public universities in the Association of American Universities, College Park ranks among the top in the percentage of African American undergraduate students. In addition, the university has the largest number of African American and other minority faculty members among its peers.

HISTORY

The University of Maryland was founded in 1807 in Baltimore as a faculty-owned College of Medicine.

The medical school was considered one of the top schools in the country, attracting notable professors and lecturers from throughout the world. In its beginning, tuition cost \$140, grades were sent home weekly to parents and students could obtain room and board for \$300 annually.

Five years later, the growing institution was renamed the University of Maryland. Despite the name, the university was not considered a state institution as it was still owned and operated by faculty. Baltimore College of Dental Surgery, the first dental school in America, became a part of the university in 1840, awarding the first Doctor of Dental Surgery (D.D.S.) degree in 1841.

In 1859, the Maryland Agricultural College, which would evolve into the University of Maryland, College Park, was opened under a charter secured by a group of Maryland planters in 1856. In addition to spending one hour each day hoeing or plowing on the college farm, students took a broad range of

courses in ancient and modern languages, natural sciences, English and mathematics. After a disastrous fire on campus in 1912, the state acquired the college and rebuilt it.

In 1920, the state legislature combined the College Park institution with the professional schools in Baltimore to form an expanded University of Maryland. The entity eventually grew to include campuses in Baltimore County, on the Eastern Shore and the worldwide University College, a continuing education institution.

The following decades saw the increasing growth of student population, excellence in programs and curricula and the burgeoning of the University of Maryland, College Park into a nationally recognized research institution.

July 1, 1988, marked the dawn of a new era in higher education in the state of Maryland, as the five components of the university were merged with six other state universities and colleges to form the University of Maryland System and College Park secured its flagship status with a mandate to become one of the pre-eminent research universities in the nation.

RESEARCH

The unique role of American research universities in advancing science and technology has kept the United States in the forefront of innovation and product development. Research dollars from federal and state agencies, corporations and foundations fuel much of the basic and applied research activity of the University of Maryland's College Park's faculty and graduate students.

The university has unique facilities, research centers and institutes that attract new research

UNIVERSITY HIGHLIGHTS

- Forty-four percent of this year's freshman class has a high school grade point average of 3.5 or above.
- ARCO's book, *Ivy League Programs at State School Prices*, rated the University Honors Program among the nine best in the nation.
- *U.S. News and World Report* rated Maryland's business and engineering programs in the top 25 among all public and private institutions.
- Last year, faculty researchers at College Park were awarded almost \$150 million in competitively funded research and development awards, an increase of 83 percent since 1988.
- No other university in the mid-Atlantic region has more top 20 graduate programs in computer, mathematical, physical sciences, and engineering disciplines than College Park, according to a recent analysis by the National Research Council.

projects and funding, as well as provide expanded knowledge in business, science and technology. The A. James Clark School of Engineering houses the Glenn L. Martin Wind Tunnel—the most advanced aerodynamic testing facility of its kind on any university campus—and the Neutral Buoyancy Facility, which simulates weightlessness for space research, the only such facility on a university campus. Other specialized facilities include:

- Computer Vision Laboratory
- Bioprocess-scale up Laboratory
- Laboratory for Ion Beam Research and Application
- Superconductivity Research Center
- Laboratory for Plasma and Fusion Studies
- Psycholinguistics Laboratory
- Computer-assisted cartographic laboratories
- Developmental Psychology Laboratory
- Center on Aging

SERVICE

Programs of public service are central to the overall mission of the university. This philosophy is reflected in the wide array of programs and initiatives that benefit the state's business, agriculture and education communities.

With more than 900 high technology firms in the three-county area of Montgomery, Prince George's and Frederick, the university has found abundant opportunity to extend its business and technology outreach programs to the region. Many of these programs are part of the Engineering Research Center, which operates the Technology Extension Service, the Technology Advancement Program and Maryland Industrial Partnerships, all programs designed to provide Maryland entrepreneurs and small businesses with research facilities, technical assistance, administrative support and access to technology that will advance their economic base.

The Institute for Systems Research has formed partnerships with major corporations, including Lockheed Martin, Westinghouse, BFGoodrich, Hughes Aircraft and Dupont to apply advanced systems research to solving industry problems in the fields of communications, manufacturing, controls and robotics.

The Center for Renaissance and Baroque Studies works in conjunction with Maryland's high schools in using theater to explore personal and social issues relevant to today's society. Team Maryland also works with area public schools by having student athletes serve as mentors to young students. Each semester student athletes act as role models to as many as 5,200 students.

The University of Maryland features a diversity of cultural and recreational activities. Four art galleries, more than 200 annual musical performances and countless dance and theater productions, expose audiences to the broadest range of programs in the arts. And intercollegiate, club, or intramural sports provide students of all levels an opportunity to participate as spectators or athletes.

and dinner cruises plus a subscription to *College Park* magazine help keep alumni connected to the university and to each other. All graduating seniors and successful master's and Ph.D. candidates receive a six-month free membership in the association.

THE ALUMNI

Graduates of the university go on to distinguished careers in many fields. Chosen from thousands of qualified

alumni, an inaugural group was inducted into the University of Maryland Alumni Association Hall of Fame in April 1995. They included 21 outstanding individuals who have brought and continue to bring, great honor to their alma mater. Their achievements are as varied as their lives, but they all have one thing in common: a degree from the University of Maryland, College Park.

THE LIBRARIES

The seven libraries at the university constitute the largest university research library system in the Washington metropolitan area, providing vital resources to researchers, visiting scholars and businesses throughout the region. The libraries' holdings include more than 2.5 million volumes, 24,000 subscriptions to periodicals and nearly 5.0 million items available in microfilm format. University Libraries also offer several nationally and internationally recognized special collections such as the International Piano Archives at Maryland, the National Trust for Historical Preservation, the Katherine Anne Porter collection and the National Public Broadcasting Archives.

THE ALUMNI ASSOCIATION

With alumni clubs from Miami, Fla. to Taipei, Taiwan, the Alumni Association strives to keep and strengthen ties between the university and its graduates. Member events such as pre-game parties, bull roasts, picnics, golf tournaments

Reginald Van Trump Truitt, B.S. '14

*Leading naturalist and marine biologist;
pioneered Chesapeake Bay research*

Millard E. Tydings, B.S. '10

*Introduced legislation to create University of
Maryland in 1920*

The University of Maryland Alumni Association Hall of Fame is located in the Commuter Lounge of the Stamp Student Union. Periodically, the Alumni Association will induct other graduates in to the Hall of Fame—its highest honor.

CUSTOMS OF COMMENCEMENT

Early commencement ceremonies at the University of Maryland were marked with great fanfare and celebration. The faculty gave huge banquets for the graduates the night before the event. The following morning, crowds gathered to watch the young graduates parade. It was a gala social occasion, attracting not only friends and relatives, but the fashionable elite of the day. At the ceremony, prayers were recited, speeches were made and honorary degrees were awarded to distinguished figures from across the country. Finally, as the audience cheered and threw flowers, the graduates came forward to collect their Latin-inscribed degrees.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession have been the traditional costume of scholars since the Middle Ages. The ordinary dress of the scholar, whether student or teacher, was similar to that of a cleric. Caps and gowns were probably worn to keep students warm in unheated buildings. Many medieval scholars were tonsured, like monks, and hoods served to

cover their shaved heads until the skull cap later took its place.

Even after the Civil War, most students at American universities wore caps and gowns daily while in residence. These varied in design until they were standardized by the American Intercollegiate Commission in 1894. At that time it was decided that all robes would be black. Colors on the trim of the gown were also standardized to indicate the scholar's academic discipline.

A list of department colors follows:

Agriculture: Maize
Arts, Letters, Humanities: White
Business Administration,
Commercial Science: Drab
Dentistry: Lilac
Economics: Copper
Education: Light Blue
Engineering: Orange
Fine Arts, Architecture: Brown
Forestry: Russet
Home Economics: Maroon
Journalism: Crimson
Law: Purple
Library Science: Lemon
Medicine: Green
Music: Pink
Nursing: Apricot

Oratory, Speech: Silver Gray
Pharmacy: Olive
Philanthropy: Rose
Philosophy: Dark Blue
Public Administration, Foreign
Service: Peacock Blue
Public Health: Salmon
Physical Education: Sage Green
Science: Golden Yellow
Social Work: Citron
Theology and Divinity: Scarlet
Veterinary Sciences: Gray

The tassel may also be colored to represent an academic discipline or it may be black. Officially, the tassel is permitted "to lie where it will" on the mortarboard. However, numerous institutions have adopted the practice of having degree candidates wear the tassel on the right front side at the start of the commencement ceremony and then shift them to the left side after degrees are awarded.

Student Marshals

Elected through a nomination process, student marshals are senior leaders who play an important role in the graduation ceremony. Student marshals assist in organizing the thousands of graduates, leading them smoothly through the commencement procession. They also supply extra caps and hoods and bobby pins to keep headwear secure. May 1997 marshals are listed on page 76 of this program.

Senior Gift

The senior gift is a university tradition dating back 87 years. The first senior gift, the iron gate entrance at the Rossborough Inn, was given by the class of 1910. As this year's gift from the graduating class, seniors have elected to create a commemorative brick courtyard on the west

side of the Chapel, formed with bricks bearing the names Class of 1997 graduates.

The purpose of the senior gift is twofold. Each year the senior class leaves behind a memorable legacy for new students and visitors, and provides the university with a gift that enhances the campus atmosphere.

Past senior gifts have included the Testudo statue (Class of 1933), the lights around the "M" in the traffic circle on Campus Drive (Class of 1986) and the restoration of the Chapel chimes and clock face (Class of 1992).

ACADEMIC DEGREES

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by colleges and universities nationwide. The University of Maryland, College Park offers degrees in 97 undergraduate majors, 94 master's programs and 73 doctoral programs.

The Doctor's Degree

The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally Doctor of Medicine, Juris Doctor and Doctor of Pharmacy. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees

in history, on March 9, 1841, and invented the name of the degree, Doctor of Dental Surgery (D.D.S.).

The second type is the research doctorate representing prolonged periods of advanced study. A dissertation which usually accompanies the study is intended to contribute substantially to the body of knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States in 1861 by Yale University. The University of Maryland awarded a Ph.D. for the first time in 1920.

The Master's Degree

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920 the University of Maryland awarded its first Master of Arts (M.A.) and Master of Science (M.S.) degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. It was first conferred in America in 1642 on the first nine graduates of Harvard College. Maryland Agriculture College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) in 1862.

Honorary Degree

Each year the University of Maryland, College Park awards honorary degrees to persons approved by a campus committee, the provost, the president and the university's Board of Regents. Through the bestowal of these degrees, the university seeks to recognize outstanding achievement in government, business, education, science and the arts. In recent years the committee has sought to recognize individuals in the greater Washington-Baltimore area who have made significant contributions to an improved quality of life in the region. Honorary degrees have also been awarded to graduates of College Park who have gone on to enjoy notably successful careers. Past honorary degree recipients include Isaac Asimov (1977), Eubie Blake (1978), Hillary Rodham Clinton (1996), Bill Cosby (1992), Hugh Downs (1988), Ralph Ellison (1974), Milton Eisenhower (1958), Jim Henson (1978), Hubert H. Humphrey (1965), Lyndon Baines Johnson (1963) and Andrew Wyeth (1964).

Joel Edward Buzy's path to the podium is unusual. Until six years ago, he had never read a book cover to cover. On the morning of his graduation from high school 11 years ago, he was told he had not passed French and might not have enough credits to receive a diploma. As it turned out, he graduated "by a small margin." Relieved, and with diploma in hand, he vowed he was through with formal education.

While friends went to college, Buzy went to work, favoring manual labor jobs in which success had little to do with academic skills. He also began to volunteer at the Bethesda-Chevy Chase Rescue Squad. At 18, he enjoyed the structure of the work, the guidance of his older colleagues, and the satisfaction of seeing good result from his efforts. By contrast, in his first years of high school, he had worked hard at his studies and failed; by the end of his sophomore year, he had stopped trying.

Joel E. Buzy Graduating Student Speaker

Encouraged by his success at BCCRS, he applied for a position with the Montgomery County Fire Department and was hired. Over the next few years, he trained as a firefighter, swift-water rescue technician, paramedic, and emergency dispatcher. The adrenaline rush of the first three roles always exhilarated him, but he found the greatest satisfaction as a dispatcher. "To be a good dispatcher," writes Russell Dawson, assistant chief of the BCCRS, "a person must be calm to the point of serenity, and be able to think quickly and clearly and speak distinctly." Dawson adds that Buzy is "the best emergency dispatcher" he has ever seen.

The discrepancy between his professional success—he graduated first in his paramedic class—and his academic failures gave Buzy the "new idea" that he "might not be stupid." As luck or fate would have it, his girlfriend, Wendy Marsh, was teaching learning-disabled children and noticed that Buzy shared some of her students' traits. After being tested, he was diagnosed with a visual-processing disorder that made reading and retaining information next to impossible.

After literally relearning how to read, Buzy decided to resign from the fire department and to give formal education another shot. In the fall of 1993, he entered the University of Maryland as an undecided major in the Division of Letters and Sciences. Working closely with William Scales and the staff of Disability Support Services, Buzy not only succeeded, he excelled. At the end of his first year, his GPA was a perfect 4.0. He continued to volunteer at BCCRS and realized that while he was thrilled to possess the clinical skills to deal successfully with medical emergencies, he wanted to know more about the science behind those skills. He decided to major in biological sciences to further his work in the health professions.

Last December, Joel Buzy celebrated his 10-year anniversary with the BCCRS. Today, he receives his bachelor's degree. In August, he will enter the Baylor University School of Medicine on a full scholarship. And last January, while on a trip to Australia, he read six books. Just for the fun of it.

Senator Bill Bradley Commencement Speaker and Honorary Doctor of Public Service

Former U. S. Senator Bill Bradley announced in 1995 that he would not seek a fourth term in the U. S. Senate, but would remain active in public life. One way he has chosen to do so is as Distinguished Leadership Scholar at the University of Maryland's Academy of Leadership.

One of Bradley's guiding principles throughout his public career has been the strengthening of America's civil society in ways that go beyond government. Through the Academy of Leadership he will guide a research agenda that addresses such issues as improving racial relations, restoring economic and personal security to American families, and revitalizing civil society. The academy, recent beneficiary of a five-year, five-million dollar Kellogg Foundation grant, is dedicated to the empowerment of individuals and communities as leaders in initiating positive change. With special focus

on the inclusion of groups traditionally under-represented in the political process—young people, women and members of minority groups—the activities of the academy under Bradley's direction will tap new technologies like the Internet to connect communities throughout the country.

As a senator (Dem.-N.J.), Bradley worked on both big reforms that protect the future and smaller innovations that touch the lives of individuals and communities. He was the third-ranking Democrat on the Senate Finance Committee, and served on the Energy and Natural Resources Committee and the Special Committee on Aging.

Before his first successful Senate race in 1978, Bradley had achieved distinction in academics and athletics. He graduated from Princeton University with honors in American history and was a Rhodes Scholar at Oxford where he earned a graduate degree. From 1967 to 1978, he served in the Air Force Reserve, attaining the rank of First Lieutenant.

Bradley was a three-time All American basketball player at Princeton, and won the Sullivan Award as the country's outstanding amateur athlete. He captained the U. S. basketball team which won the gold medal at the 1964 Tokyo Olympics. When he returned from Oxford in 1967, Bradley joined the New York Knicks and played professional basketball for ten years, winning two NBA championships. He has written a memoir, *Life on the Run*, about those years.

In 1996, Bradley published a second memoir, *Time Present, Time Past*, based on his experience as a U.S. senator, and his travels throughout the country. The University of Maryland welcomes Bill Bradley as a consummate leader in the effort to strengthen and transform our civil process and honors him today with a Doctor of Public Service degree.

From the date of his graduation from the University of Maryland with a mechanical engineering degree to the present day, George McGowan has built his public life on two loyalties: the Baltimore Gas and Electric Company and service to the community.

McGowan traces much of his good fortune back to his college days in the late '40s and early '50s. As a track star sprinter, he ran the 100-, 220- and 440-yard dashes, appropriate preparation for the fast track he followed during his life-long career at BGE.

Beginning as a project engineer on several coal-fired energy plant projects, McGowan broke new ground as project leader on the Calvert Cliffs Nuclear Power Plant, becoming BGE's first Chief Nuclear Engineer. He became a vice president in 1978, and was named president, chief operating officer, and director in 1980. By 1988 he had risen to the top of the company as chairman and chief executive officer. He continues to serve on BGE's Board of Directors and is chair of the Executive Committee.

George V. McGowan Class of 1951 Honorary Doctor of Public Service

McGowan may well be the most active civic volunteer in the state. Over the years, he has served a diversity of organizations from the American Red Cross Baltimore Region to the Maryland Chamber of Commerce and the Walters Art Gallery. Currently he serves as chair of the board of the Baltimore Symphony Orchestra and the Baltimore Polytechnic Institute Foundation, vice chair of the University of Maryland Medical System, and president of The Center Club. He also holds directorships in numerous civic organizations, including CollegeBound Foundation and the United Way of Central Maryland. During his active employment, he served on a number of utility-related industry boards and was chairman of the United States Energy Association of the World Energy Council. His current corporate affiliations include directorships of NationsBank, N.A., McCormick and Company, Inc., Baltimore Life Insurance Company, UNC Incorporated, and GTS Duratek.

Topping the list of his commitments for many years was his membership on the University of Maryland System Board of Regents, where he served for 12 years, seven as chair of the body that sets policy and practice at eleven institutions of higher education throughout Maryland. "I feel strongly that when you enjoy some degree of success, you have the responsibility to give something back to the community and to those organizations that have contributed to that success," McGowan said in 1987, when he was recognized by the university as a Distinguished Alumnus. "My experience here at Maryland has been significant for me, and this school has continued to play a very important role in my life."

George McGowan is being honored today with a Doctor of Public Service degree in recognition of his civic responsibility, his contributions to the advancement of the university and the state, and his effective leadership in so many areas of public concern.

**Robert H. Smith
Class of 1950
1997 President's
Distinguished
Alumnus Award**

Robert H. Smith, a 1950 graduate of the Maryland Business School, is considered one of the most prominent developers in the National Capital area. His family company is best known for building the massive Crystal City complex in Northern Virginia.

Smith joined his father's firm, the Charles E. Smith Companies, after graduating from the University of Maryland. He correctly predicted that Northern Virginia would experience phenomenal growth and began assembling parcels of land from abandoned railroad yards and warehouse areas for development. His vision and involvement led to the development and construction of Crystal City. Now, Charles E. Smith Construction Inc., and Charles E. Smith Residential Realty Inc., comprise the largest commercial real estate development, construction, leasing, and property management firm in Washington, D.C. It is the largest U.S. developer operating in a single market. Bob Smith serves as president of the construction company and co-chairman of the board and co-CEO of the public company.

Crystal City is among the largest self-contained urban complexes in the world, featuring 43 high-rise buildings on 150 acres. Other Smith projects include Skyline, Courthouse Plaza, Worldgate, University Center and Corporate Park at Government Center. The Smith Companies have developed over 16 million square feet of commercial space and 22,000 residential units, in addition to retail space, hotels and athletic clubs throughout the metropolitan area.

Smith and his wife, Clarice—a renowned artist—are leading philanthropists in the area. In addition to a major endowment which supports Jewish Studies at the University of Maryland, the family has a long history of supporting George Washington University, where Bob was a trustee for twenty years. The Smiths are major benefactors at the Holocaust Museum and Hebrew University. Bob is a trustee at the Brookings Institution, the Washington Airports Task Force, and two family foundations.

Active in cultural and international affairs, Smith is a trustee and president of the National Gallery of Art, a life member and former president of the Greater Washington Jewish Community Foundation, and former chair of the Board of Governors of the Hebrew University of Jerusalem.

The Distinguished Alumnus award is presented annually to an alumnus or alumna who has achieved national recognition for excellence in his/her profession or field of endeavor. Nominees are recommended by the general alumni body, the Alumni Association Board of Governors or the deans of the schools, colleges or institutes of the University of Maryland.

Scholarship Honors

Bachelor's degree candidates who have qualified for scholarship honors upon graduation are designated by appropriate symbols adjacent to their names within the alphabetical listings of colleges or schools.

To be eligible for consideration for such honors a candidate must meet the following general criteria: (1) at least 60 semester credits must be earned at or transferred with a grade to the University of Maryland at College Park; (2) no more than 6 credits taken satisfactory/fail or pass/fail shall be counted toward the 60-hour minimum; and (3) no student with an average less than 3.3 will be considered for a commencement honor.

Degree candidates who have met these criteria are shown in the listings as qualifying, upon graduation, for the designators *Summa cum Laude* (if they ranked in the top 2 percent of the candidates in their respective colleges or schools), *Magna cum Laude* (if in the next 3 percent), or *cum Laude* (if in the next 5 percent) based on the grade point averages of students in the preceding three graduating classes of their degree-granting unit.

UNIVERSITY HONORS CITATIONS

Students who have earned the University Honors Citation may wear red and gold braided cords over their academic gowns.

Student Marshals

The Senior Marshal Program, which began in 1991, is an opportunity for the campus community to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administrators and staff for their outstanding accomplishments and contributions to the University of Maryland at College Park. We are proud to recognize these truly remarkable students.
